Dear Kyle,

Re: Public Event Smoke-Free Management Plan

Thank you for submitting your Smoke-Free Management Plan for the Burnie Show and Agri Expo, which will be held in Ridgley on October 4th and 5th, 2024.

I have assessed your plan, and based on the information provided, I approve your plan. If you require a Places of Assembly Licence, this Smoke Free Management Plan must be sent to Council along with your Place of Assembly licence application.

Events are no longer regulated by specific COVID-19 Public Health Guidelines. *Guidelines for COVID-19 safety at events* have been revoked and events can proceed without requirements to submit and gain approval of an Event COVID-19 safety plan.

However, with COVID-19 continuing to circulate within the community, it remains important to act to reduce the spread of COVID-19 at events. To achieve this, event organisers are encouraged to implement the advice contained in Public Health Guidance - *COVID-19 safety at events*. This information can be accessed here: https://www.business.tas.gov.au/coronavirus_information

If you intend to make any changes to your event, which will require amendments to your Plan, you must resubmit an amended Plan to the Department of Health at 15/110 Collins Street, Hobart, 7000, or email curtis.salter@health.tas.gov.au or phone Curtis Salter, Tobacco Control Officer on 0437 605 038.

Yours sincerely,

A handwritten signature in cursive script that reads "c.salter".

Curtis Salter
Tobacco Control Officer
